I'm a 30-year-old French front-end developer. Recently certified by an accredited front-end development bootcamp, I specialize in writing clean, scalable, and efficient code. I am proficient in JavaScript, TypeScript, and the React ecosystem, and I am eager to contribute to and adapt to your team's needs, fueled by my passion for creating exceptional user experiences.

SKILLS

- React.js
- JavaScript
- TypeScript
- Next.js
- HTML
- CSS
- SASS
- Tailwind CSS
- Styled Components
- Figma
- GIT
- Redux Toolkit
- State Management
- Consuming RESTful API
- Jest / Vitest

PERSONAL PROJECTS

COUNTRIES API REST:

Live Demo: countries-api-restful.vercel.app

GitHub Repository: github.com/maxdnc/Countries-API-rest

Stack: React / Typescript / React-Router / Tailwind CSS / shadcn-ui / Redux Toolkit / React-Query / GIT / RestCountries API / Vercel / Vite / Vitest - Jest / Testing-Library

Countries API REST is a web application designed to explore information about countries provided by the RestCountries **API**. This interactive platform allows users to **filter**, **search**, and **bookmark** favorite countries for later exploration. With a simple click, users can delve deeper into any country's details.

KEY CONTRIBUTIONS:

- Developed a responsive and user-friendly front-end using **React**, showcasing expertise in modern web application development.
- Utilized **Typescript** for type safety and enhanced code quality.
- Conducted testing with **Vitest / Jest** to ensure the reliability and quality of the application.
- Employed **Redux Toolkit** to centralize state management, streamline data flow between components, and maintain a predictable and scalable application structure.
- Styled the user interface with a clean and visually appealing design using **Tailwind CSS**, demonstrating proficiency in CSS frameworks.
- Utilized **shadcn/ui** for UI components, enhancing user interaction and accessibility.
- Integrated **React-Query** for data fetching, optimizing API calls, and enhancing data retrieval efficiency.
- Used the RestCountries API to fetch country information, showcasing API integration skills.
- Implemented navigation and routing using **React-Router**, ensuring smooth transitions between pages.
- Ensured version control by utilizing **Git** and **GitHub** for efficient code management.

CRAZEE BURGER:

Live Demo: crazee-burger-maxdnc.vercel.app

GitHub Repository: github.com/maxdnc/crazee-burger

Stack : React / JavaScript / Vite / Styled-Components / Firebase / GIT / Vercel / React-Router

Crazee Burger is a **responsive web application** designed for browsing and selecting food items from a dynamic menu. It includes an intuitive admin panel that empowers administrators to manage menu items using standard **CRUD (Create, Read, Update, Delete)** operations. This project was executed as a simulation of an **Agile** development process. **Kanban** approach to manage tasks, ensuring transparency, efficiency, and adaptability throughout the development cycle.

KEY CONTRIBUTIONS:

- Developed a user-friendly and visually appealing web app using **React**, demonstrating proficiency in front-end development.
- Employed **React hooks**, including useContext and custom hooks, for efficient state management and improved code organization.
- Implemented **responsive design** and optimized the user interface to ensure a consistent and engaging experience on various devices.
- Utilized **Styled-Components** for styling, showcasing expertise in CSS / SCSS and modern styling techniques.
- Integrated **Firebase** for real-time database functionality, showcasing knowledge of back-end interaction.
- Maintained a **scalable** and **clean** folder **architecture**, making the codebase easily **maintainable** and **extensible** through refactoring efforts.
- Ensured version control by utilizing **Git** and **GitHub** for efficient code management.

EDUCATION

Front-end Developer certification • at OpenClassRooms (associate's degree level)
February 2023 - November 2023 [France]

LANGUAGES

English and French

PROFESSIONAL EXPERIENCE

Diverse Hospitality Roles in the Tourism Industry • 2016 - 2022 [France] :

Soft Skills: Communication, Organization, Customer Service, Attention to Detail, Teamwork, Adaptability, Patience
